

THIRD PARTY APP CONSENT - SECONDARY - 2024

Recently there has been a tightening up of the rules around the use of third party digital services in Western Australian Schools. The main concerns are for the privacy of students and to limit the amount of personal information that is shared when creating student accounts. The department has rated websites and applications based on the way they collect information and there are 4 categories.

Please check the privacy information via the link below and respond to this form if you agree to the service providers conditions and give permission for your child to access the applications.
